5.1	AODA Compliance for Playground Structures	<ul style="list-style-type: none"> Mark Finocchio inquired as to whether peat gravel under playground structures is still AODA compliant? Lou Citino commented that: <ul style="list-style-type: none"> There is a Canadian standard regarding maintenance and installation, which is applied to Board / school playground equipment. Facility Services references Annex H, which sets-out minimum standards for new or major retro-fits to playground structures. If no changes are made to playground structures, the use of peat gravel doesn't necessarily need to be addressed. Schools are meeting the standard requirement, if the status quo is maintained. Lou suggested that perhaps the Board may want to look at this item as a collective group to facilitate a larger, broader discussion. It was noted that it was very expensive to retrofit playgrounds to meet the standards. 	Lou

5.4	Accessibility Compliance Report – December 31, 2021	<ul style="list-style-type: none"> The Board is currently compliant with report criteria and have a few items underway. The Report can be found on the Ontario Ministry for Seniors and Accessibility website. The Report must be submitted by December 31st. Scott will utilize the Team site to collaborate with various departments to complete sections of the report. The final report will be reviewed at the February 2022 meeting. One area for consideration is Universal Washrooms for students and staff. 	Scott / Linda
5.5	Evac Chairs	<ul style="list-style-type: none"> What is the plan to assist students / staff from evacuating multi-story buildings during an emergency? There are eight elementary and four secondary multi-level buildings in the Board. Can Evac Chairs be purchased? If they are purchased, who is responsible for their purchase / payment, where will they be stored in buildings, who would be using them, etc.? Can OSBIE Audit monies be used to purchase evac chairs? Contact OSBIE to provide recommendations regarding this matter. Should this matter be included in the Board's Emergency Response Plan? To develop a Board-wide response plan, multi-level schools should be polled to determine what equipment is needed. The results of the poll and how it can be launched will be shared with the Committee. 	<p>Deb King-Bonifacio</p> <p>Deb King-Bonifacio</p>
